My Testimonial:

"Larissa's Shadow Play Performance was really great to have as part of our celebrations. I loved that it was low-tech using a dropcloth and a projector light creating the shadows. The kids really loved it, dancing and creating imaginative body shapes, interacting with the light and shadows with a musical backing. They didn't want to stop and it was entertaining for the audience too.

The shadow technique reminded me of the shadow puppets I saw in Bali that entertained the villagers at night. This medium has lots of potential for magical storytelling events. I wish Larissa well in her future artistic endeavours."
